the scientific study of the sun, moon, stars, planets, etc.	astronomy
the scientific study of ancient things	archaeology
the scientific study of bacteria	bacteriology
the scientific study of the life and structure of plants and animals	biology
the scientific study of plants	botany
the scientific study of climate	climatology
the scientific study of universe	cosmology
the scientific study of crime and criminals	criminology
the scientific study of the production and effects of very low temperature	cryogenics
the scientific study of secret writing and coded words	cryptography
the scientific study of cell	cytology
the scientific study of statistics of birth, death and diseases	demography
the scientific study of trees	dendrology
the scientific study of skin	dermatology
the scientific study of diet and health eating	dietetics
the scientific study of environment	ecology
the scientific study of the development of embryos	embryology
the scientific study of insects	entomology
the scientific study of the spread and control of diseases	epidemiology
the scientific study of working conditions	ergonomics
the scientific study of human races	ethnology
the scientific study of causes of diseases	etiology
the scientific study of derivation of words	etymology
the scientific study of the genes	genetics
the scientific study of the earth's surface and physical features	geography
the scientific study of the origin and history of the rocks	geology
the scientific study of old age	gerontology
the scientific study of tissue	histology
the scientific study of the blood and its diseases	hematology
the scientific study of growing flowers, fruits and vegetables	horticulture
the scientific study of the earth's water	hydrology

the scientific study of protection against disease	immunology
the scientific study of lakes and other fresh water bodies	limology
the scientific study of language	linguistics
the scientific study of the general physical characteristics of rocks	lithology
the scientific study of the earth's atmosphere and its changes	meteorology
the scientific study of the measurement	metrology
the scientific study of very small living things	microbiology
the scientific study of coins and medals	numismatics
the scientific study of metals and their uses	metallurgy
the scientific study of minerals	mineralogy
the scientific study of fungi	mycology
the scientific study of nervous system	neurology
the scientific study of the ocean	oceanography
the scientific study of tumors and their treatment	oncology
the scientific study of eye	ophthalmology
the scientific study of light	optics
the scientific study of birds	ornithology
the scientific study of correct spelling of words	orthography
the scientific study of ancient writing systems	paleography
the scientific study of fossils	paleontology
the scientific study of the punishment of criminals	penology
the scientific study of the formation of rocks	petrology
the scientific study of drugs and their use in medicine	pharmacology
the scientific study of the development of language	philology
the scientific study of the normal functions of living things	physiology
the scientific study of disease	pathology
the scientific study of art of teaching	pedagogy
the scientific study of stamp collection	philately
the scientific study of the mind and its influence in behavior	psychology
the scientific study of earthquakes	seismology
the scientific study of the nature and development of society	sociology
the scientific study of poisons	toxicology
the scientific study of virus	virology
the scientific study of election trends	psephology
the scientific study of animals	zoology
that which cannot be read	illegible
that which cannot be moved	immovable
that which cannot be felt physically	impalpable
that which cannot be passed through	impassable
that which cannot be penetrated	impenetrable
that which cannot be felt	imperceptible
that which cannot be measured	imponderable
that which cannot be practiced	impracticable
that which cannot be defeated	impregnable
that which cannot be approached	inaccessible
that which cannot be admitted or allowed	inadmissible
that which cannot be taken away	inalienable

that which cannot be heard	inaudible
that which cannot be calculated	incalculable
that which cannot be burnt	incombustible
that which cannot be communicated	incommunicable
that which cannot be corrected	incorrigible
that which cannot be believed	incredible
that which cannot be cured	incurable
that which cannot be defended	indefensible
that which cannot be removed	indelible
that which cannot be destroyed	indestructible
that which cannot be identified	indeterminate
that which cannot be digested	indigestible
that which cannot be done without	indispensable
that which cannot be disagreed with	indisputable
that which cannot be divided	indivisible
that which cannot be eaten	inedible
that which cannot be described in words	ineffable
that which cannot be selected under the rules	ineligible
that which cannot be ignored	inescapable
that which cannot be avoided	inevitable
that which cannot be justified	inexcusable
that which cannot be tired out	inexhaustible
that which cannot be destroyed	inexorable
that which cannot be explained	inexplicable
that which cannot be expressed in words	inexpressible
that which cannot be separated	inextricable
that which cannot be done	infeasible
that which cannot be copied	inimitable
that which cannot be counted	innumerable
that which cannot be satisfied	insatiable
that which cannot be dissolved in a liquid	insoluble
that which cannot be overcome	insurmountable
that which cannot be touched	intangible
that which cannot be endured	intolerable
that which cannot be conquered	invincible
that which cannot be seen	invisible
that which cannot be harmed	invulnerable
that which cannot be settled	irreconcilable
that which cannot be regained	irrecoverable
that which cannot be rectified	irreparable
that which cannot be resisted	irresistible
that which cannot be made right	irretrievable
that which cannot be changed back	irreversible
that which cannot be changed	irrevocable

a doctor who treats microbes-related infectious diseases	microbiologist
a doctor who treats new-born babies	neonatologist
a doctor who treats kidney problems	nephrologist
a doctor who treats nerve diseases	neurologist
a doctor who treats nervous system	neurosurgeon

a doctor who treats cancer diseases	oncologist
a doctor who treats eye problems	ophthalmologist
a doctor who treats broken bones	orthopedist
a doctor who treats children	pediatrician
a doctor who treats foot and ankle problems	podiatrist
a doctor who treats mental illnesses	psychiatrist
a doctor who treats lung illnesses	pulmonologist
a doctor who treats diseases of animals	veterinarian
an instrument for measuring accelerations	accelerometer
an instrument for measuring altitude	altimeter
an instrument for measuring electric current	ammeter
an instrument for measuring wind speed	anemometer
an instrument for measuring hearing	audiometer
an instrument for measuring air pressure	barometer
an instrument for measuring electromagnetic radiation	bolometer
an instrument for measuring diameter of tubes and round objects	calipers
an instrument for measuring the angle of a slope	gradiometer
an instrument for measuring electrical potential	electrometer
an instrument for seeing internal body organs	endoscope
an instrument for measuring electricity	galvanometer
an instrument for measuring humidity	hygrometer
an instrument for seeing very small objects	microscope
an instrument for measuring number of miles a vehicle has travelled	odometer
an instrument for measuring how far you have walked	pedometer
an instrument for measuring angles	protractor
an instrument for recording earthquakes	seismograph
an instrument for measuring seismic waves	seismometer
an instrument for measuring speed	speedometer
an instrument for measuring blood pressure	sphygmomanometer
an instrument for listening somebody's heart and breathing	stethoscope
an instrument for measuring speed of engine	tachometer
an instrument of seeing distant objects	telescope
an instrument for measuring temperature	thermometer
an instrument for measuring viscosity	viscometer
an instrument for measuring voltage	voltmeter
a place where animals are killed for their meat	abattoir
a place from where military aircraft flies	airbase
a place where public, government or historical records are kept	archives
a place where weapons and ammunitions are stored	arsenal
